Headmaster

ODYSSEY HIGH SCHOOL AT SOUTH BOSTON
A FOCUS ON ENVIRONMENTAL SCIENCE

ALEXANDER MATHEWS
Asst. Headmaster

February 10, 2003

TO WHOM IT MAY CONCERN:

Robert Lamothe is an extraordinary teacher and resource to the three high schools at South Boston. Mr. Lamothe teaches at Excel High, one floor down from my school, Odyssey School of Environmental Science. Mr. Lamothe is like the pied piper among students. He introduces students to a world of computers, video making and mixed media. Mr. Lamothe, with the help of his students, produced for our school a promotional video, which is incredible! Our school is project based. Mr. Lamothe was able to capture the field studies component as well as the classrooms of our school on video, showing our school to its best advantage.

Mr. Lamothe never refuses to help whether it is working with our art teacher or making a video that the three schools used for accreditation purposes. He is the "go to person" for anything and everything regarding media.

He is affable, competent and slightly eccentric making him the perfect person in education.

Sincerely,

Virginia Ordway-Macrina
Headmaster
